

Practical 1: Project Initiation, Requirement Analysis, Sitemap, Wireframe, and GitHub Setup

Aim:

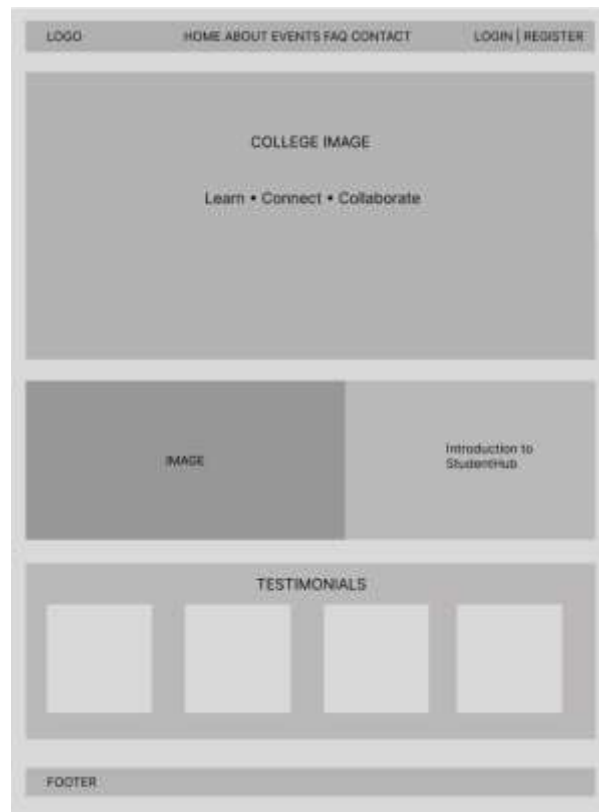

Initiate the semester-long StudentHub portal by identifying the problem scope, user roles, key modules, navigation flow, and minimum 10 pages. Create a sitemap, low-fidelity wireframe, project folder structure, README file, and GitHub repository.

Sitemap:

Wireframes:

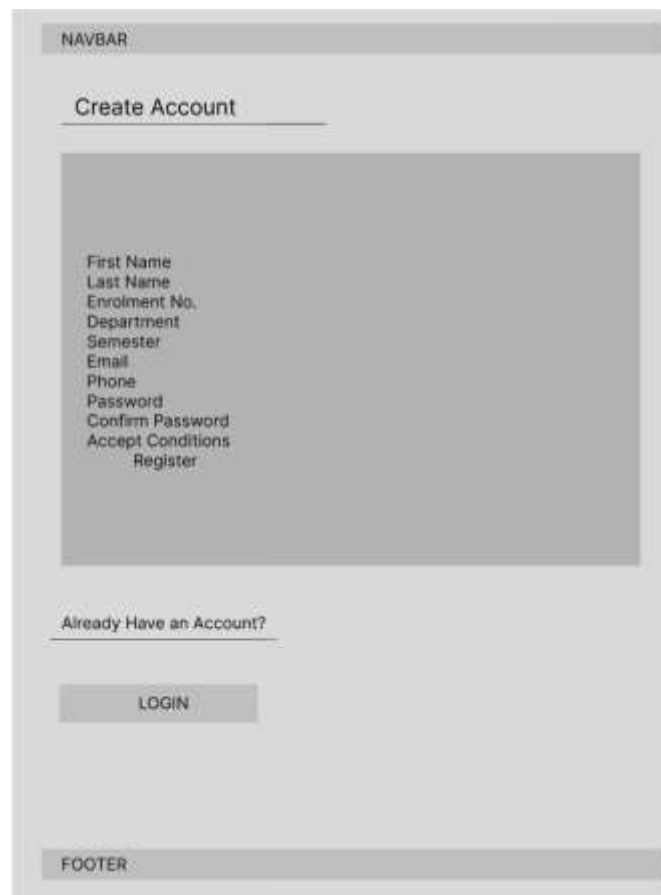

Home Page:

About:

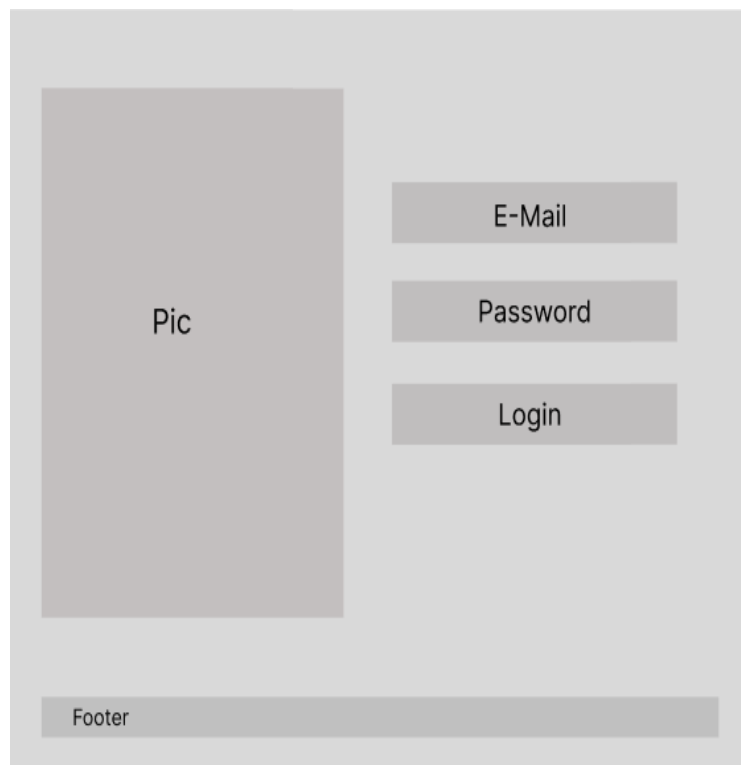

Register Page:

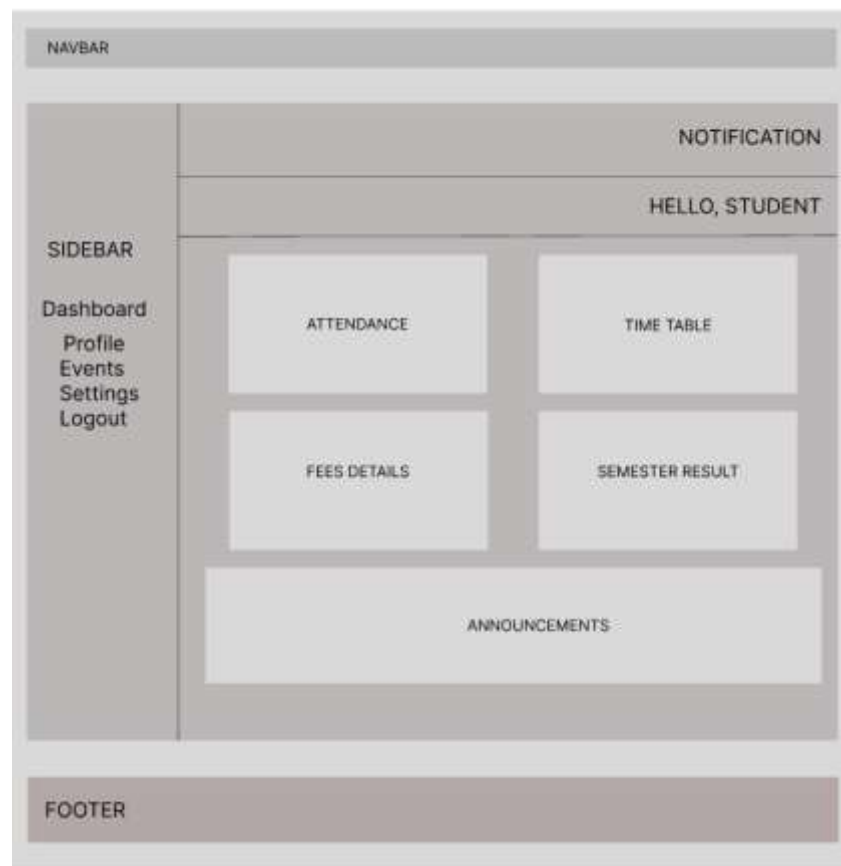

A wireframe of a registration page. At the top is a grey 'NAVBAR'. Below it, the heading 'Create Account' is underlined. A large grey rectangular area contains a list of form fields: First Name, Last Name, Enrolment No., Department, Semester, Email, Phone, Password, Confirm Password, Accept Conditions, and Register. Below this area, the text 'Already Have an Account?' is underlined. A 'LOGIN' button is positioned below the link. At the bottom is a grey 'FOOTER' bar.

Login Page:

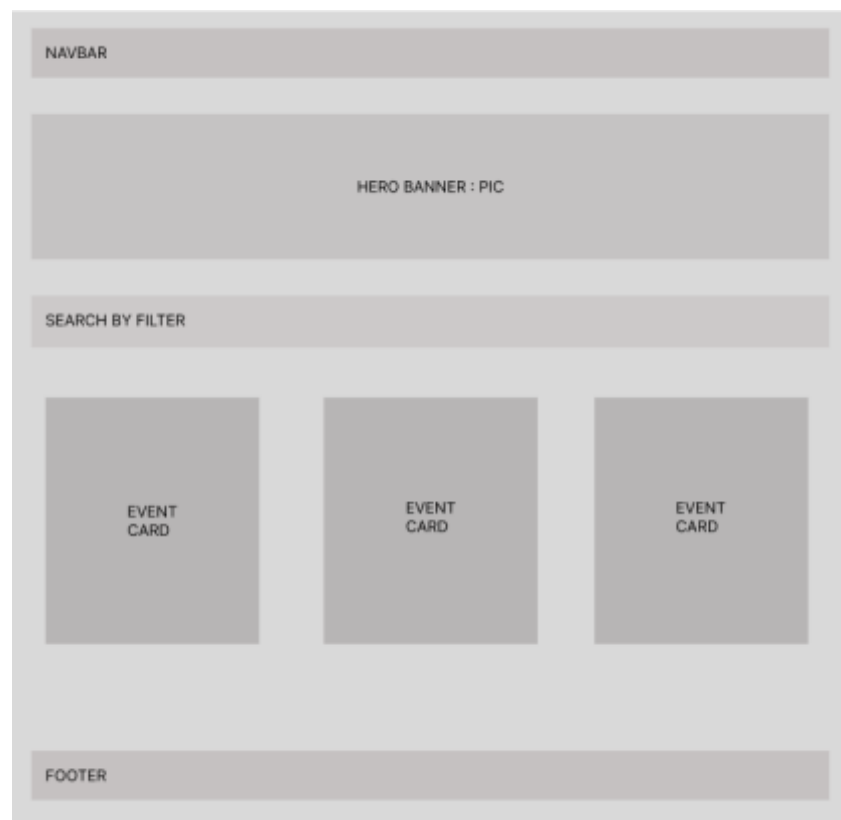

A wireframe of a login page. On the left is a large grey rectangle labeled 'Pic'. To its right are three stacked input fields labeled 'E-Mail', 'Password', and 'Login'. At the bottom is a grey 'Footer' bar.

Dashboard:

Events-Info Page:

Profile Page:

A wireframe of a profile page. It features a top navbar, a main content area with a profile picture placeholder and a list of fields (NAME, ENROLMENT ID, DEPARTMENT, SEMESTER, E-MAIL), a section for SKILLS/ACHIEVEMENTS, a section for CERTIFICATES, an EDIT PROFILE link, and a footer.

NAVBAR

FAQs:

A wireframe for an FAQs page. It features a top navbar, a main heading 'FREQUENTLY ASKED QUESTIONS' with the subtext 'FIND ANSWERS INSTANTLY', a search bar labeled 'SEARCH FAQs', a list of expandable categories (Registration FAQs, Login & Password, Dashboard, Event Registration, Profile Management), a 'STILL NEED HELP? CONTACT INFO' link, and a footer.

README file:

```
# StudentHub Portal

## Project Overview
StudentHub is a responsive web portal designed to provide students with easy access to college information and services

## Features
- Home Page
- About Page
- Student Registration
- Login
- Dashboard
- Events
- Profile
- FAQ
- Contact
- Admin Panel

## Technologies Used
- HTML5
- CSS3
- JavaScript

## Project Structure
- HTML pages
- CSS folder
- JavaScript folder
- Images folder

## Developed By
Vaidehi Parmar
```

GitHub Repository:

Repo name: StudentsHub

Repo link: <https://github.com/Cynthia758/StudentsHub>

Requirement Analysis:

The StudentHub Portal requires separate user roles (Guest, Student, and Admin), a responsive and user-friendly interface, and modules for registration, login, dashboard, events, profile, FAQ, and contact. The system should provide smooth navigation and be structured for future backend integration.
